Company: Sovos

Location: İstanbul

Category: other-general

### **Build your future with Sovos.**

If you are looking for an opportunity where career-minded professionals can achieve success while bringing their best and whole selves to work each day, Sovos may be the company you have been looking for. Employees at Sovos operate on the leading edge of digital technology while working to improve lives and the communities in which we live and work. When we say Solve Tax for Good, we mean For Good in every sense of the word. Our organizational commitment is to provide a place where employees can thrive and progress in their careers while having the support behind them that only a global company can offer. Sound like this might be the opportunity you have been looking for?

Take a look at our career posting below. Don't check all the boxes? Apply anyway! We are focused on hiring the right people, not the "right" resume.

It's not about what you have done somewhere else, it's all about what you are capable of doing here.

### **The Work You'll Do:**

We are currently looking for an experienced Software Engineer interested in Cloud Infrastructure and Automation. The SREs in Sovos should have a good understanding of Sovos Applications, Cloud architecture and is proficient with Monitoring tools and Technologies.

More specifically, you will:

Provide server/system management, server backup, network infrastructure management and information security.

Define, direct and manage data center, cloud structures and components requirements.

Define commission and manage the requirements of big data infrastructures.

Analyze the requirements of the corporate IT infrastructure, planning, commissioning, meeting the problems and demands, analyzing, producing solutions.

Provide 3rd level support to Helpdesk processes on service and system issues.

Record the work done and report it to their superiors.

Follow the developments related to the field, to define the ones suitable for the institution, to activate / ensure their commissioning.

Work with cloud deployment, monitoring, and operation analysis tools.

Team mentality and willingness to share knowledge and ideas.

Great communication skills, written and verbal.

Keep up with metrics and use monitoring systems to provide the best performance, scalability and stability.

### **What We Need From You:**

Knowledge of computer network connections, installation of software and hardware applications.

Minimum of 3 years of work experience.

Ability to analyze problems quickly and find suitable solutions based on available resources.

Experienced in VMware, Hyper-V virtualization technologies, installation and management.

Knowledge of ISO27001, and big data and cloud infrastructures.

Experienced in Windows servers and Linux operating systems.

SAP Basis knowledge is preferred.

Knowledge of security software, and Data Storage Technologies and backup systems.

Good level of system and network knowledge (Active Directory, DHCP, DNS, TCP/IP, LAN,

WAN, VPN, IP Routing) (Preferred).

Developed communication and reporting skills, competent in planning and team management.

Strong experience of monitoring and alerting services such as Zabbix & Prometheus/Grafana.

Experience of CI/CD systems such as Azure DevOps.

### **What Does Sovos Offer You?**

The tools to enhance your life - because we want you to enjoy your life outside of work and inside!

Mentoring Programs

Management Bootcamps and Development Trainings

Yearly performance reviews where compensation and performance are assessed and rewarded generously

Clear paths for growth within our roles (but we know that career development can be like a spider web, not a ladder - we give you the tools to move outside of your career as well!)

Sovos is an equal opportunity employer committed to providing an environment that celebrates diversity and where equal employment opportunities are available to all applicants and employees. We do not discriminate against race, colour, religions, national origin, age, sex, marital status, physical or mental disability, veteran status, gender identity, sexual orientation, or any other characteristic provided by law. At Sovos, all employees are encouraged to bring their whole selves to work.

### **Company Background**

Sovos is a global provider of tax, compliance and trust solutions and services that enable businesses to navigate an increasingly regulated world with true confidence. Purpose-built for always-on compliance capabilities, our scalable IT-driven solutions meet the demands of an evolving and complex global regulatory landscape. Sovos' cloud-based software platform provides an unparalleled level of integration with business applications and government compliance processes.

More than 100,000 customers in 100+ countries – including half the Fortune 500 – trust Sovos for their compliance needs. Sovos annually processes more than three billion

transactions across 19,000 global tax jurisdictions. Bolstered by a robust partner program more than 400 strong, Sovos brings to bear an unrivaled global network for companies across industries and geographies. Founded in 1979, Sovos has operations across the Americas and Europe, and is owned by Hg and TA Associates. For more information visit and follow us on and .
