Software Engineer(New Grad)

[Apply Now](#)

Company: Dream Games

Location: Şişli

Category: other-general

Job Description

We are looking for a passionate new grad who wants to gain experience in game development. This is an exciting opportunity to contribute to all areas of game development, including programming graphics, game logic, and user interface using Unity. It is not required to have prior game development experience since we believe a competent software engineer can develop great things in any field. You will work effectively as part of a multi-disciplinary team of engineers, artists, and game designers to create games that will be played by millions of people all around the world.

At Dream Games, all team members have a genuine chance to contribute to the final product and have an impact on the company. If you want to be a team member of a fast-growing company, you might be the person we are looking for!

Responsibilities

Designing, implementing, and testing game features

Delivering well-structured code and participating in code-review sessions

Creating flexible code that can be easily updated as the product evolves

Contributing to the improvement of user experience in the games

Requirements

Fresh graduate from the field of Computer Science, Computer Engineering, or Software Engineering

Knowledge of Object-Oriented Programming

Interest in Unity and C#

Passion and interest in games

Appreciation and understanding of teamwork

Compensation & Benefits

Monthly net salary is 150.000 TL

Health, dental, and vision insurance with %100 coverage

Relocation support as needed

Protecting your privacy and the security of your data is a top priority for Dream Games. We collect and process your personal data as confidential as part of the recruitment process.

Please read our and to know more details.
