Software Engineer(Part-time)

Apply Now

Company: Dream Games

Location: Şişli

Category: other-general

Job Description

We are looking for a passionate part-time software engineer who wants to gain experience in game development. This is an exciting opportunity to contribute to all areas of game development, including programming of graphics, game logic and user interface using Unity. It is not required to have prior game development experience since we believe a competent software engineer can develop great things in any field. You will work effectively as part of a multi-disciplinary team of engineers, artists and game designers to create games that will be played by millions of people all around the world.

At Dream Games, all team members have a genuine chance to contribute to the final product and have an impact on the company. If you want to be a team member of a fast-growing company, you might be the person we are looking for!

Responsibilities

Designing, implementing and testing game features

Delivering well-structured code and participating in code-review sessions

Creating flexible code that can be easily updated as the product evolves

Contributing to the improvement of user experience in the games

Requirements

Pursuing your 4th year and graduating in 2024 or January 2025 from the field of Computer Science, Computer Engineering, or Software Engineering

Knowledge of Object-Oriented Programming

Familiarity with Unity and C#

Available for a minimum of three days per week

Passion and interest in games

Appreciation and understanding of teamwork

Protecting your privacy and the security of your data is a top priority for Dream Games. We collect and process your personal data as confidential as part of the recruitment process. Please read our and to know more details.
