## Sr Embedded Software Dev Engineer, Blink

[Apply Now](#)

Company: ADS Turkey Veritbani Hizmetleri Limited Sirketi - H10

Location: İstanbul

Category: other-general

THIS ROLE REQUIRES RELOCATION TO GDANSK, POLAND, EU

Do you have what it takes to keep our cameras running for two years on two AA batteries?

Blink is looking to grow our firmware team with talented embedded software development engineers. Our products need to be easy to use and run on minimal power.

Seeing is knowing. At Blink, we make it easy to use cameras that show you what is going on. Come be a part of it!

### A day in the life

In this role, you will lead the firmware effort bringing new consumer products to market.

You will interact with teams both within Blink and across the rest of Amazon. Most importantly, you will focus on ways to make the best products for our customers.

### About the team

Blink is a team of builders that proudly develops connected consumer products completely in house using a fast paced and efficient process. Acquired by Amazon, we love seeing Blink on the amazon.com home page, in retail stores, and in the homes of millions of users. We combine our startup culture with the resources and scale of Amazon to create a vibrant, fun, and rewarding place to work.

We are open to hiring candidates to work out of one of the following locations:

Istanbul, TUR

### **BASIC QUALIFICATIONS**

- Experience with C/C++ firmware development with constrained resources (MIPS, RAM, FLASH, I/O)
- Experience with with embedded CPU architecture
- Experience with security technologies and protocols
- Experience with real-time, multi-threaded experience with Linux and/or RTOS
- Experience with years including external libraries in C applications
- Experience with working in a Linux development environment including editing, make, and source control
- Experience with reading schematics and using hardware lab equipment such as scopes, logic analyzers, etc.
- Active participant in bringing at least one successful product to market.
- Bachelor's degree in a STEM field

### **PREFERRED QUALIFICATIONS**

- Audio/Video codec knowledge
- Experience with camera image processing
- Embedded Linux (uBoot, Kernel, Driver)
- Bare metal, assembly, BSP, POST, RTOS
- Experience with Wireless (WiFi, Bluetooth, Zigbee, sub-GHz) stacks
