

Supplier Quality Engineer

[Apply Now](#)

Company: Siemens Sanayi ve Ticaret Anonim Sirketi

Location: İzmit

Category: other-general

What part will you play?

Implements the agreed commodity and SQM strategy (including value, digitalization and collaboration)

Drives supplier performance and continuous improvement and collaborates in supplier development programs.

Creates and negotiates General Quality and Quality Assurance agreements and monitors supplier contract coverage rate.

Applies preventive quality methods aimed at risk minimization.

Designs, maintains and improves specific quality requirements, specifications and concepts based on supplier and product/service risk assessment.

Supports standardized supplier qualification process according to corporate guidelines (ready for business).

Coordinates product/service qualifications and approvals based on specific requirements/specification (ready to order).

Actively involved in projects to support/review specifications & requirements.

Implements complaints management to detect and analyze non-conformances, verifies root cause analysis and communicates with supplier. Supports sustainable problem

solving.

Plans and executes supplier audits including follow-up of audit measures.(i.e. by means of VDA6.3 audit questionnaire

Continuously improves internal SQM processes (innovation, digitalization, LEAN)

Fosters (virtual) interaction with suppliers.

Acts as SQM contact person in cross-functional teams and towards supplier.

What you need to make real what matters

Technical Bachelor degree (Mechanical Engineering, Metallurgy Engineering or Electrical Engineering preferred)

3+ years of professional experience within the area of supplier quality preferably from an international company

Proactive and result oriented, structured approach to complex tasks throughout cross-functional teams.

Experience with Metal and Plastic parts will be an advantage.

Auditing experience in ISO9001 & VDA6.3 candidates with an Auditor certification will be preferred.

Knowledge of quality methods, analysis tools & technical drawing and tolerances (e.g. APQP in manufacturing and product development, 8D in problem solving) is required

Possession of outstanding communication and excellent English skills both orally and in writing (Knowledge of German language would be considered as an advantage)

Willingness to travel domestically and abroad (Driving License is a must)

Proficiency in MS Office Applications

Six Sigma Green belt is a must
