## Supply Chain Systems Associate

Apply Now

Company: Blueground

Location: Istanbul

Category: other-general

At **Blueground**, our vision is to make people feel at home wherever they choose to live. For us, that means ensuring our guests have the peace of mind, flexibility & confidence they need to explore life's latest adventure.

We've grown a lot since our founding in 2013, having raised more than \$300m+ in funding, to date -- and that's just the beginning. We're now hosting guests in more than 15,000 homes in 32 cities around the world (and growing!), with an aim to hit 50 cities by 2025. Our vision comes to life through our ways of working. For our 1,000+ member team located across 17 countries, we've created a culture of collaboration, inclusiveness, and opportunity.

We believe our people should have the power to choose their preferred way to work. Depending on the role's requirements, team members can choose to work full time in one of our offices, work fully remote, or choose a hybrid model between the two.

We are driven by our core values. To our **Titles**, our most important resource **Excellence** isn't simply a standard, but an exciting way to look at life. **Care** deeply about our guests and colleagues. Our relationships are built around **Transparency** which builds trust and improves communication.

We are looking for **Supply Chain Systems Associate** to join our Supply Chain team in **Istanbul**. Through this role, you will play a pivotal role in ensuring the effective utilization, optimization, continuous improvement, and excellence of our Global Supply Chain Systems, including ERP, PowerApps, and WMS (Warehouse Management Systems). You will be responsible for enhancing data accuracy, identifying inefficiencies, and actively participating

in the development and version upgrades of our systems. Moreover, you will provide dedicated support to users, ensuring seamless operations across the organization's supply chain processes.

**What you will focus on:**

**System Utilization and Optimization:**

Collaborate with cross-functional teams to ensure the effective use of Supply Chain Systems (ERP/PowerApps/WMS) by end-users.

Monitor system performance and identify areas for improvement to streamline operations and enhance efficiency.

Develop and implement strategies to maximize system functionality and user experience.

**Data Accuracy and Efficiency:**

Conduct regular audits of data inputs and outputs to maintain high levels of accuracy and integrity within the systems.

Proactively identify and address inefficiencies in processes and workflows, recommending and implementing solutions to optimize system performance.

**System Development and Version Upgrades:**

Play a key role in developing and version upgrades (including migrations).

Collaborate with internal and external stakeholders to gather requirements, assess technical feasibility, and ensure smooth implementation of system enhancements and upgrades.

**User Support and Training:**

Provide ongoing support and training to end-users on system functionalities, best practices, and troubleshooting techniques.

Serve as the primary point of contact for resolving system-related issues and inquiries, ensuring timely resolution and minimal disruption to operations.

**What we are looking for:**

Bachelor's degree in Industrial Engineering, Information Systems, Business Administration, or

related field.

Proven experience (3-4 years) working with Supply Chain Systems, including ERP, PowerApps, and WMS, preferably in a fast-paced environment.

Fluency in English and Turkish

Strong analytical skills with the ability to assess complex business processes and identify areas for improvement.

Experience with Navision would be an advantage

Proficiency in data analysis and interpretation, with a keen attention to detail and accuracy.

Project management skills and experience

### **Recruitment Dialogues \*:**

Each step in our process is designed to help you shine, while also gathering information about Blueground and the open role!

Talent Acquisition team (30-40m): Deep dive into past experiences & opportunity to discuss your collaboration style

Hiring Manager & Functional Leader (30-40m): Showcase your technical skills & ability to achieve results

Senior Functional Leader (30m): Honing in on your appetite for being strategic & innovative

\*Some of the steps above may be merged in the form of joint calls, or scheduled as back to back steps

### **Your benefits:**

Competitive salary

Flexible paid time off

Group Health Insurance program

Enhanced parental leave

Dynamic working environment with talented people

Complimentary accommodation in Blueground locations. Think summer in LA and winter in Dubai!

Flexible work environment through our Blueground Nomads employee mobility program

#LI-hybrid
