Category: other-general

Eklendi 11/12/2023

Company with global engagements

Huge chance to delve deep into sustainability strategies of various companies

Müşterimiz Hakkında

Our Client is a German-based Company with 20+ years of global expertise. With offices located in various regions of the world, our client is one of the market leaders in Mid-Europe, in providing advisory services for the leading industries.

İş Tanımı

Managing key client accounts and guiding global companies to prepare for a decarbonized and carbon neutral future by assessing their current ESG impacts, creating Science-Based Targets, and engaging effectively with key stakeholders.

Leading the delivery of carbon / climate change assessments for a wide range of infrastructure projects

Assessing the performance of projects against national and international standards and to inform the development of project design.

Proposes and implements strategies to address various environmental concerns including energy use, investments and general education on sustainability subject.

Strategize with a focus on natural resource management, circular economy, and

reporting frameworks and guidelines such as the GRI, CDP and Task Force on Climate-related Financial Disclosures (TCFD), Equator Principles

Supporting clients on ESG performance and KPIs

Maintaining awareness of any new technologies or methods that may increase sustainability and continually recommending cost-effective and environmentally friendly practices.

Evaluating the environmental impact a business has through research, such as determining their carbon footprint, energy use, water use, waste production and air quality

Aradığımız Profil

A strong academic background from a well-recognized institution, having a Bachelor of Science Degree in Engineering is a plus.

Very fluent in spoken and written Turkish and English (This is a must)

Outstanding oral and written communication skills

Strong capability in managing projects and juggling priorities so that deadlines are met while retaining consistently high-quality outcomes.

Strong inter-personal skills with the ability to integrate into existing teams, and work alongside colleagues of other disciplines.

Apply knowledge and understanding of environmental legislation and both Turkish and International standards/regulations.

Experience in developing and implementing standards, procedures, and processes to manage ESG risks including GHG emissions and management systems,

Knowledge in GHG emissions calculation, GRI & CDP & LCA Reporting and ISO 14064 & ISO 14046

Very strong familiarity with the sustainability reporting standards; Global Reporting Initiative, TCFD and SASB, etc.

Self-motivated, able to work independently but take direction when necessary.

Extensive knowledge of efforts (initiatives / project / commitments) in the industry to reduce

the carbon impact of transportation, construction and the built environment

Demonstrated ability to manage multiple and complex operational matters daily

No restriction to travel in and abroad.

Teklif Edilenler

Be part of a global sustainability organization while working in Istanbul

Further advancement potential in client and industry portfolio.

Further incentives will be provided by the company to address employee happiness.
