Technical Software Engineering Lead

Apply Now

Company: Tech Company

Location: Izmir

Category: other-general

At Tech Company (Contractor)

Expires at: 2024-07-12

Remote policy: Global remote

About the project

Given our growth projections, we plan to open our first non-US office by Q2 2024. As a critical first step, we will hire a technical software engineering lead (employee number #1).

Role and Responsibilities

- Recruit, lead, and manage a team of driven software engineers

- Develop and foster world-class modern development best practices

- Provide seasoned technical direction and guidance for the engineering team

- Nurture a culture of ownership and technical excellence

- Work with product, customer success, and commercial to ensure requirements are over-delivered

- Track and manage the successful delivery of software and key results

Main requirements

- 7+ years of experience in **software development** and **technical leadership**

- Bachelor's degree in Computer Science, Physics, Mathematics, or related field

- 5+ years of experience with **agile** software methodologies

- 5+ years of **React** , **Vue**, or related technologies

- 5+ years of **Python**

- 3+ years of working in an early-stage startup (< Series B)

- Excellent verbal and written communication skills in English

- Strong real-world coding skills (we will provide backend and frontend tests)

- Design and develop complex systems (distributed, eventing, trading, ML)
