Technical Software Engineering Lead

[Apply Now](#)

Company: Tech Company

Location: Turkey

Category: other-general

At Tech Company (Contractor)

Expires at: 2024-07-12

Remote policy: Global remote

About the project

Given our growth projections, we plan to open our first non-US office by Q2 2024. As a critical first step, we will hire a technical software engineering lead (employee number #1).

Role and Responsibilities

Recruit, lead, and manage a team of driven software engineers

Develop and foster world-class modern development best practices

Provide seasoned technical direction and guidance for the engineering team

Nurture a culture of ownership and technical excellence

Work with product, customer success, and commercial to ensure requirements are over-delivered

Track and manage the successful delivery of software and key results

Main requirements

7+ years of experience **software development** and **technical leadership**

Bachelor's degree in Computer Science, Physics, Mathematics, or related field

5+ years of experience with **agile** software methodologies

5+ years **React**, **Vue**, or related technologies

5+ years **Python**

3+ years of working in an early-stage startup (< Series B)

Excellent verbal and written communication skills in English

Strong real-world coding skills (we will provide backend and frontend tests)

Design and develop complex systems (distributed, eventing, trading, ML)
