VP of Engineering

[Apply Now](#)

Company: Pointr

Location: İstanbul

Category: other-general

Our Story Pointr is a global leader in indoor location technology. Our mission is to deliver reliable, scalable, and intuitive location experiences to connect people with and within buildings across omnichannel Web, Mobile, and Kiosk platforms. Our Deep Location platform has revolutionized the indoor positioning, smart building, and IoT markets. With several Fortune 100 clients across 27 countries and more than 1,000+ buildings already, we have promising plans for the years to come. We have distinguished ourselves in the marketplace by growing around three core values: Ownership, Harmony, and Scale. These values are at the heart of every role, as we collectively create the future of indoor location technology.

Role Overview Pointr is looking for a Technical design supervisor who works closely with a CTO and product leaders to leverage Pointr products to the next level.

Key Responsibilities: Lead and manage the team effectively Define the strategy for how Pointr approaches engineering, working across functions to ensure key stakeholders Plan Pointr product roadmap along with CTO and CEO and ensure teams deliver in line with the product roadmap agenda Prepare high-level technical design documents according to documented business requirements Design UML diagrams and ensure our quality is top-tier Schedule and execute coordination meetings with team leaders to maintain seamless integration between Pointr products

Must have skills & qualifications Experience managing people and motivating team Excellent understanding of Mobile SDK technologies +10 years of experience working in engineering Good understanding of Backend technologies for high-demand microservice architectures with distributed server setups High proficiency of Cloud server providers and their capabilities Advanced understanding of product design

fundamentals Expertise in Software development life cycle and methodologies Flawless communication skills Previous experience in a similar role within a technology company Deep technology experience and interest (Engineering or Computer Science background is a huge plus) Startup experience and ability to work in a fast-paced environment We offer Supportive, kind (no-ego), and smart team Relaxed and comfortable office in Bomonti, Istanbul, or Mahall, Ankara Hybrid work (2 days in the office) International environment and inclusive culture Competitive base salary and attractive stock options 5 days of paid leave in your first year Company-paid parental leave Unlimited meal card on office days Private health care (Allianz Orange+ package) #LI-HYBRID Powered by JazzHR
