Company: Assystem

Location: Mersin

Category: other-general

Company Description

Finding solutions to climate change is the priority of the 21st century, and means switching to low-carbon energy. At Assystem, our mission is to accelerate the energy transition worldwide. To achieve this, our 7,000 Switchers combine their historical engineering expertise and project management with digital technologies.

In our 12 countries (Europe, Middle East, Asia) of operation, we are working on the production and distribution of low-carbon electricity, through the development of nuclear and renewable energies. We are also supporting the modernisation and development of energy grids, managing the setup and siting for new transmission and distribution networks, and using hydrogen to decarbonise the transport and industry sectors.

Assystem in Türkiye, is renowned for working with the public and private sectors.

Specializing in ESIA studies, site investigations, and laboratory research, the company offers vital site supervision owners and lenders engineering services. Notably, Assystem in Türkiye plays a pivotal role in major projects like power generation, and the construction of the Akkuyu nuclear power plant.

Job Description

Mechanical & Welding Inspector is in charge of performing predefined checks regarding the conformity of mechanical and welding works concerning essentially

concrete reinforcements, embedded items, steel liners, etc. during the construction phase, and steel supports, pipelines, equipment fixing, etc. during the installation phase.

Responsibilities:

Ensure compliance of mechanical and welding works with regulatory and technical requirements, including Turkish law 30024.

Maintain traceability of inspections, defaults, deviations, and non-conformities.

Verify and ensure the proper correction of identified issues.

Conduct on-site inspections to guarantee the execution of works aligns with documentation and standards.

Elaborate and document Work Inspection Reports.

Assess and record defaults or deviations, issuing non-conformity notifications when necessary.

Contribute to the AEOS Project Monthly Report by providing insights into inspection activities.

Interface with the AEOS Inspection Team, Mechanical & Welding Lead Inspector, and Project Support Team.

Adhere to Quality Assurance processes and HSE requirements.

Communicate effectively with stakeholders involved in mechanical and welding works.

Duties:

Belong to the AEOS Inspection Team, report to the Mechanical & Welding Lead Inspector, and interface with the AEOS Project Support Team

Acquire knowledge of NPP Project referential, including norms, standards, and procedures.

Review and comment on execution documentation such as technical drawings and quality plans.

Prepare on-site inspections, identifying elementary checks based on Turkish law 30024.

Conduct independent tests on samples when necessary, coordinating with accredited laboratories.

Respect and follow existing AEOS project Quality Assurance processes.

Ensure meticulous observation to detect and record non-compliances.

Demonstrate organizational skills to manage inspections efficiently.

Rigorously collect and record justifications supporting inspection results.

Attend technical meetings upon request.

Qualifications

Education: Graduated from Mechanical Engineering, Metallurgy Materials Engineering or as a minimum Technical diploma in the mechanical field (High school + 2 years)

Experience Minimum 3 years in inspection or quality assurance/control in mechanical and welding engineering, with a total minimum of 5 years of professional experience.

-

Certification (Mandatory): Having a welding diploma/certificate (IWE, CSWIP 3.1 or equivalent). Having valid NDT certificates will be a plus

Language: Native in Turkish and able to communicate in English (Russian is a plus).

Knowledge Good knowledge of relevant standards such as ISO 9001, ISO 3834, ISO 17660, ASME 31.1, ASME 31.3. GOST, PNAE G, NP knowledge will be a plus.

Skills : Strong written and verbal communication skills, ability to write technical documents and reports.

Behaviour : Impartial and upright, resistant to external pressure, organized, and rigorous.

Specific Requirements: Driving license mandatory, completed military service (for male candidates), flexibility in working time due to construction

Additional Information

We are committed to equal treatment of candidates and promote, as well as foster all forms of diversity within our company. We believe that bringing together people with different backgrounds and perspectives is essential for creating innovative and impactful solutions. Skills, talent, and our people's ability to dare are the only things that matter !. Bring your unique contributions and help us shape the future.
